President's Message

It is with great joy that I write this column and a bit of sadness. First, I'm eternally grateful to Nancy Breeding our new editor of the "Trailblazer"! Thank you Nancy! Next, this will be the last message I write to you as President. Sad only because it has been an honor to serve as President to such a wonderful group of friends and that time is coming to an end.

I want to thank all of you who have been loyal to the club and served in many capacities. While I could never name all of you, working with you has truly been a joy.

As our Annual Rally and Meeting approaches, I hope each and every one of you may have the opportunity to attend. Rally Hosts John & Nancy Cross have worked very hard to prepare a wonderful event at the Nashville KOA.

It is time to look forward to the 2014 club year, new faces, great rallies and good friends. I know you will be as helpful and kind to the new Board as you have been to us.

Sincerely, Eileen Disbrow

Come Join Us for our 2013 Annual Rally & Meeting

Club Logo Items

The club has a variety of logo items available for purchase. The Royal or White collared polo shirt is very nice. Also recently added are T-shirts in Royal or White which look great with our club Baseball Cap. In addition to the above, a few members have purchased a lightweight fleece vest which is very sharp. For information on logo items contact Eileen at chinook121@tampabay.rr.com or by calling 813-633-5113.

CHINOOK CHOW—RECIPES FROM THE ROAD

This Month it's Cake Time!

3-2-1- Dessert from Sally Arnold

This is a great light dessert, bonus it's quick and easy, great for Chinook cooking.

In advance...

1 box angel food cake mix

1 box yellow cake mix (but you can use any kind that you like)

Mix the cake mixes together and store in airtight container or ziplock bag.

The angel food cake is important because it is the egg white for the cake makes it light.

Single Serving

Mug (microwave safe) place all ingredients in the cup

3 TBS cake mix

2 TBS water, stir into the cake mix

1 minute in the microwave

Enjoy but for extras you can add anything for variation...

1. Fruit on top of cake mix before cooking
2. Piece of chocolate before cooking
3. Whipped cream after it has cooked
4. Ice cream after it has cooked

Latter two do not make it as light but it is really good!

Upside Down German Chocolate Cake from Bob and Charmaine Gibson — a hit at the Cape May Rally!

One Box Duncan Hines German Chocolate cake mix

One cup of shredded coconut

One cup chopped pecans

One stick of margarine

One 8oz pkg of cream cheese

One box of confectioners sugar

One teaspoon vanilla flavoring

Spray bottom of 9x13 baking pan with Pam

Spread coconut evenly over bottom of pan

Spread pecans evenly over the top of the coconut

(You may choose to use more coconut and pecans)

Mix cake mix according to directions on the box

Pour cake mix over coconuts and pecans

Mix margarine, cream cheese, confectioners sugar and vanilla flavoring until creamy.

Drop mixture by tablespoons into cake mixture

Bake per package instructions. It will probably take longer than the box says so it is best to check with a toothpick

Enjoy!!!

PARTS LOCATOR and RECOMMENDED PRODUCTS

A recent conversation on the Chinook Yahoo group turned up parts numbers and sourcing through PPL Motorhomes pplmotorhomes.com for awning endcaps for many of our awnings. Western member Dave Shehane says in a message that actual awning has a funny family history. It is a Horizon by A&E , but A&E was/is owned by Dometic, and that particular awning was built by Fiamma for A&E/Dometic , so if you need parts/support you need to look to Fiamma. More at the Yahoo group, see Social Media below.

Recommended products: Recent products that have been recommended by members:

To wash and shine your coach Eileen Disbrow recommends **Attwood Marine Cleaner Wax**. Some Walmarts carry it in the boating departments.

Dan and Maria Ashby swear by **Fluid Film** for any and all vehicle lubricant needs. <http://www.fluid-film.com/>

Tips and Tricks:

Sponge on a Stick! Sounds like something to eat? No, it's a handy trick to clean under your roof solar panel.

"Take an old, dry kitchen scrubbing sponge (I used one of those that was a pink regular sponge on the top and white no-scratch scrubber layer on the bottom and use an awl to start a hole about 2/3 the way in the pink sponge layer. Then I took my green garden support pole, the kind you get at Home Depot, about 3/8 in diameter and worked it into the hole by turning the pole as I pushed a little. Then wet the sponge. It's the exact perfect thickness to get under the solar panel!" Contributed on the Yahoo group by Joyce, '02 Premier.

Travelogue by Sally Arnold

Long Trips and Planning... Destination Newfoundland!

Well where should we go next? Searching out new and exciting places to visit should be fun. Last year when our rally was determined to be in Cape May, we decided to head north from there to Prince Edward Island, Newfoundland and Labrador. Our planning is never written in stone and we look for the exciting opportunities that come along to get us to our ultimate destination. Rarely do we make reservations.

We research the place we are going to on the Internet to see what is involved in getting there, along with places of interest. This year to go to Newfoundland we had to deal with ferries. The longest ferry is the one that went from Sydney, Nova Scotia to NF. We thought this ferry was 5-7 hours, but what we didn't know was that you have to be there two hours ahead of time to allow them to

load the ship. You really need short-term reservations for this once you know you are within a few days of arrival.

Going over we decided to go at night since Toby, our dog, would sleep in the Chinook. The ship had a kennel on deck but you were required to have your dog in your carrier. You cannot do anything for your animal in either place. Toby loves the Chinook so we left him in it with food and water and he slept. The passage over was relatively calm but it was really difficult to sleep in chairs like in a theater. We didn't get much sleep, but Toby must have—he was sleeping when we got back to the camper. Because of how great he did we decided to take the day-passage back when we returned, thinking we would see a lot on the ship. If we did it again I'd just go at night. You can get sleeping quarters; you don't really see that much during the day, plus you don't lose the whole day.

With a tentative route we get started and head for the Outer Banks to camp, not planning for tropical storm Andrea. We love the OBX especially the Hatteras NPS areas, inexpensive and beautiful, even in a storm. Finally we arrived in Cape May for the rally to see everyone and enjoy visiting for a few days before heading North.

We wound up going North with lots of tolls from the New Jersey Parkway and George Washington Bridge being the worse. Also we have never experienced low bridges on a parkway. Who has ever heard of this? We will avoid this area forever! We will check our Allstays App for low bridges from now on too. I can't believe we didn't see a sign notifying us but we apparently missed it until we were on the parkway.

We love Maine and spent a few days there at LL Bean, Bar Harbor, and Lubec. Lubec is a great little place with the Eastern-most town in the US. There is a wonderful campground at Sunset Point and really nice people that we met there, but you can also stay in close-by parks too. Campobello Island, New Brunswick is just across the bridge. You can tour Roosevelt's Cottage and grounds, have tea with Eleanor, hearing all about this First Lady and what she accomplished. A wonderful experience and totally free, even the homemade cookies

and tea! At the end of the island is the most beautiful lighthouse, it was foggy when we first got there... beautiful pictures! Even a sailing boat appearing out of the fog was surreal.

We stopped at the St. John's welcome center in NB to find nice places to see. They were very helpful and we had free parking and a trip to the City Market via their above ground Pedway passenger walk. It is easy on and off of the expressway but we

would not have found it if the welcome center had not recommended it. A great resource for travelers with no agenda. Fundy Bay is a real phenomenon with its tide, but the rocky grounds and sands are so neat you must see it. We stayed at the Fundy Bay National Park, home of big mosquitoes that we are going to have to learn how to deal with. They will be bad at various points along our journey. Also the Provincial Parks and National Parks are usually really nice and a good price.

Prince Edward Island is very quaint with friendly people. Lobster dinners, Celtic ambiance, and farming are all very popular; we always try the local food. The best thing to do for Chinookers is to go to the harbors where the boats come in and buy lobster from them. You just cook them in seawater and with plenty of butter and lemon you will have the best dinner ever! We did this with mussels too.

We had been to Nova Scotia before but not camping so we only were on our way to the big ferry in Sydney. You will definitely want to explore this area because it is divided into trails and each offers different scenery. We camped at Cape Breton Provincial Park, very nice on a brook. We

love stopping at the harbors and seeing the fishing boats and meeting the people who always want to tell you places to see and things to do that aren't necessarily mainstream. Also more big lobster, paying less than \$4 a pound off the boat.

Off to the big ferry and the long, dreaded ride. It wasn't near as bad as thought, the only time I'm glad Toby is older and not as full of energy—he slept.

Finally arrived at Newfoundland and headed for Labrador and the Viking settlement. Time slows down once you arrive in NF, I guess because the weather and remoteness dictates a slower lifestyle. I would not want to live there, but it was so interesting. We amble towards St. Barbe to catch a small ferry over to Labrador only two hours. Great to see whales and icebergs! Labrador is just one tiny village after another up its steep coast. Great for watching the whales and icebergs float by.

We stopped at Red Bay where the road turned to dirt. There is Viking history on up the coast from there but we stopped at the dirt, even though it probably was passable. We had to catch the ferry back to St. Barbes, and there is a very nice campground just after you get off of the ferry. It isn't pretty but is fenced with very nice facilities in the building, even a kitchen you can use.

At the Viking Center at L'Anse aux Meadows, the Canadian government has built a great museum and tour of the excavated actual site. Then we went through a re-created area of the site as it would have been, all completely to scale. Our guide was the most wonderful part. He lived there as a kid of a fisherman family of 11 children. His stories of playing on the dunes in homemade oilskin clothing and how they lived and survived was icing on the cake. When he said that in the winter he rides his snowmobile over the museum because the ice and snow cover it, it let me know real quick I could never live like that! I have a link at the bottom to a video.

I hope you all can make this journey sometime in your Chinook, will have lots more memories and another check on that bucket list. Now for the long trip home with more adventures!
