## *Message from the President*

Well, summer is winding down, as is our rally schedule for the year. The annual Rally in Canyonville, Oregon was fantastic, not only because of site and the great group of folks who came, but we found new Chinook folks in the park who joined our group! Later on, as we wandered through the Cascades on our circuitous route home, we met another Chinook couple from Camus, Washington, who indicated they would be joining our club also. Nice to find new people who want to share our Chinook experiences!

I would like to bring up a couple of key points for folks to contemplate:

1. It would be great if everyone would send Kelli their checks for annual dues – right now, and not have the annual pain in the tail of getting folks signed up.
2. We will be having elections for officers next year....think about stepping up and taking a job for the club. The thing about our group that is great, is everyone helps everyone else...being an officer of the club is pretty easy and everyone should take a turn.

The other interesting tidbit of information I will offer is what we learned from Rich and Diane Poole, who attended our Canyonville Rally from the Eastern Club (Thanks for joining us!) – they stopped at Country Coach in Junction City to see if they could learn anything about the “New Chinook”. All they could learn was that nothing was going on, no further production, no contracts to build more than the Glacier we saw at Pahrump. Now we do not know if that was the whole story or misinformation to keep us guessing, but with no word forthcoming from the “New Chinook” folks we can only assume that things may have slowed down or taken a pause on the re-introduction the new Chinooks. Maybe we can get an update before or at the Pahrump Rally....we will have to see.

## *Linda Speaks (VP Rally)*

Well, we had a great time at the rally planned by our vice president of flash rallies, Sylvia Teague. Good job, well planned and implemented.

We had lots of good pizza and beer and our own pot luck. Oh my! What wonderfully and delicious foods. We had a pot luck meal every night. Mary Esther brought her baby boom box and binder of CD's, with both old and new tunes. A lot of us danced to the tunes and had lots of fun.

We had our annual board meeting, and at the business meeting, announced the line up of rallies for 2015.

**Pahrump, Nevada** March 26th, out on the 29th–  
Mini rally, hosted by Bob and Vera Raudman.

**Quincy, CA** May 28, out on the 31st.-

Mini rally, hosted by Jan Olmsted & Kathy Bailey

**Sedona, AZ** October ??

Annual rally, hosted by Bob & Mary Coleman

**Chula Vista, CA** December 3, out December 6

Mini rally, hosted by Mike & Mary Esther  
Chavarella.

We had a technical meeting with questions and answers on the Chinooks. Also a question and tutoring session on computers, i-pads and i-phones moderated by Dave Shehane and Bob Shetland, our resident experts.

Some of the rallies are still in planning stage, and details will be made available as soon as possible.

If you can host a rally at your favorite location or have questions, please let me know.

Travel Safe,

*Linda Blackburn* VP Rallies

## *Editor's notes:*

1. The Eastern Club, ( Chinook Camping Club) will be having a rally on June 23-26, 2015, in Elkhart, Indiana. They are considering it as a joint rally with our club. They have reserved 30 spaces at the Elkhart Campground. If any are interested, keep the date open and we will provide more information and details as soon they become finalized.
2. Financial Report will be in next issue.
3. Annual Business Meeting minutes will be in next issue.
4. Rally updates by next issue as they become available. Some are still in final stages of planning.
5. Lastly, if you didn't see it on the front page, **DO NOT FORGET TO SEND IN YOUR DUES!!** The directory is used for all correspondence by the club.

***Canyonville, OR. Annual Rally held 8-26/29-2014***

**Wednesday 8-27-2014.**(Unofficial Start of the rally) Some of us just couldn't wait for the rally, and 8 units checked in today. This was the hottest day of the week, with temperatures in the high 90's. Seven Feathers resort is a beautiful park, well spaced sites, full concrete pads, grass in landscape between sites, full hook-ups, and excellent showers and restrooms. The early birds were of course Sylvia Teague, our host, then Scheese, Froess, Bailey/Olmsted, Dare, McCrum, Earley and Brown.

**Thursday 8-28-2014**  
The rest of the Chinooks trickled in during the day, ending with 21 units by 6pm. We filled all the spaces on both sides of the street, and it looked like an RV sales lot. Most of the units were Concourses, with a couple of Destinies/ Cascades, but only one Glacier. We had the Poole's from the Chinook Camping Club come all the way from Columbia, MO (OK, so they were visiting the west coast anyway)

At 6pm we had a Pizza feast in the Pavilion. We all got re-acquainted and told of happenings since the last rally. The day was warm, and we all made use of our air conditioners. In the evening, we gathered and reminisced .

**Friday 8-29-2014**  
It was cool during the morning, And after breakfast, we had a book/tape exchange. Lots of books came out, and when it was over by noon, there were

only 2 unclaimed books. During the day, some of the members who walked around the park, spotted a 1990 Chinook Voyager here. The owners were invited to the pot luck that evening, and later on I believe we convinced them to join. (See picture on front page)

Then one of our first of many pot lucks started at 6pm. As usual, there was more food that we could possibly eat. Our host, Sylvia Teague, filled us in on the upcoming events. Mary Esther Chavarela provided her boom box for background music, which turned into dancing after dinner. Kathy Bailey provided a 1000 piece puzzle which several members took an interest in. We had to shut them down at 10pm in observance of the "quiet hours"

**Saturday 8-30-2014**  
Another cool morning after a rather

hot day Friday. With the bean bag toss on the lawn next to Sylvia's Coach, almost everyone took turns trying to get those little bags into the holes. Highest individual

score went to Vera (Ax Thrower) Raudman. The highest aggregate score went to Ray Blackburn after a vigorous tie breaker against Garry Brown..

At 5 PM there was the Board Meeting where upcoming rallies and other items of business were discussed including an absolute deadline for membership renewal. At

6pm, we had our catered dinner. Teri-

yaki Chicken, BBQ ribs, Salmon, Salads, Rolls, Potatoes, Mac & Cheese, and BBQ beans. Dessert was Fruit and Boston Cream Pies. For drinks we had Lemonade, Iced Tea & Coffee.

Immediately following dinner we held our annual membership meet-

ing. A quorum was established and business was conducted. Next year the meeting will include election of officers

so start thinking of candidates to fill positions. Linda Blackburn (VP Rallies) filled us in on upcoming rallies. Following her presentation, We thanked Syl-

via Teague for putting on a great annual rally this year. We recognized all the members who had hosted rallies in the past. Then Garry Brown presented a

short presentation for the Annual Rally which he will be hosting in 2016 in Comox, BC. Mary Esther again provided music and there was some dancing into the night

**Sunday 8-31-2014**

Another beautiful morning, where we were free until 1 PM, where Dave Shehane and Bob Shetland put on a well attended “tech talk” question and answer session on iPads, iPhones, and general computer problems.

At 2pm Dave again hosted a “tech talk” with questions and answers on our

Chinooks. Discussed were tire aging, batteries, tank deodorizers, LED lighting and many other things. At 6 PM we held our final pot luck. Hoping to get rid

of all the leftovers, but still some members brought new dishes. All were delicious and we finally succeeded in using up it all. Again, we talked into the evening, and said good byes to those who would be leaving early in the morning, and retired.

On Monday, some of us, (actually 7 other coaches) , stayed the extra day not wanting to be on the road on a holiday. What did we do? We of course had another pot luck, new dishes. We got all the awnings in, chairs picked up, cleaned the pavilion, and disposed of any trash, in preparation for departure the next day.

*Mike Froess*

**Editors note:** Something terrible happened to my camera’s SD card, and all the pictures from the first day and a half were lost. I tried a recovery program when we got home, but to no avail.

## Never know who you might run into on a trip.

..Sharon and I recently returned from a month long RV trip to British Columbia's Slokan Valley...while visiting Nakusp, BC on Canada Day (July 1), we parked our rig at their municipal RV Park...Sharon took Gatsby for a walk and I hopped on my bike to check out the town...riding by a parking lot I noticed a Chinook Concourse...I rode up to it, noticed a CA plate, and there on the side was none other than Stan Oliviera looking at a nail in his rear tire...small world and what an unexpected surprise to say the least!...the nail produced a very slow leak and Stan aired it up w/plans to get it fixed the next day...Kit came back from her walk and I

called Sharon...Stan & Kit parked right across from us at the RV Park for the night and the four of us ventured off to enjoy Canada Day together in Nakusp, BC...we hung out in their beer garden in the park and enjoyed their pig roast w/all the fixin's...we visited their beautiful beach and took a stroll along their waterfront walking path and also caught their fireworks celebration...a truly unexpected great day!... the next morning we took pictures of us and our rigs and declared ourselves a mini-rally before parting ways.

## BEER QUOTES

One night at Cheers, Cliff Clavin said to his buddy, Norm Peterson: "Well, ya see, Norm, it's like this.. A herd of buffalo can only move as fast as the slowest buffalo. And when the herd is hunted, it is the slowest and weakest ones at the back that are killed first. This natural selection is good for the herd as a whole, because the general speed and health of the whole group keeps improving by the regular killing of the weakest members! ; In much the same way, the human brain can only operate as fast as the slowest brain cells. Excessive intake of alcohol, as we know, kills brain cells. But naturally, it attacks the slowest and weakest brain cells first. In this way, regular consumption of beer eliminates the weaker brain cells, making the brain a faster and more efficient machine! That's why you always feel smarter after a few beers.

To some it's a six-pack, to me it's a Support Group. Salvation in a can!  
*Leo Durocher*

Remember "I" before "E," except in Budweiser.  
*Professor Irwin Corey*

"Without question, the greatest invention in the history of mankind is beer. Oh, I grant you that the wheel was also a fine invention, but the wheel does not go nearly as well with pizza."  
*Dave Barry*

"24 hours in a day, 24 beers in a case. Coincidence? I think not."  
*H. L. Mencken*

"Beer is proof that God loves us and wants us to be happy."  
*Benjamin Franklin*

I feel sorry for people who don't drink. When they wake up in the morning, that's as good as they're going to feel all day."  
*Winston Churchill*

"When we drink, we get drunk. When we get drunk, we fall asleep. When we fall asleep, we commit no sin. When we commit no sin, we go to heaven. So, let's all get drunk and go to heaven!"  
*George Bernard Shaw*

"When I read about the evils of drinking after golfing I gave up reading."  
*Paul Horning*

Sometimes, after playing golf, I reflect on all the beer I drink, I feel ashamed. Then I look into the glass and think about the workers in the brewery and all of their hopes and dreams. If I didn't drink this beer, they might be out of work and their dreams would be shattered. I think, "It is better to drink this beer and let their dreams come true than be selfish and worry about my liver."

There is the possibility of a movie one night. The rally is fluid, and things may change depending on mood, weather or circumstances. It is guaranteed to be a great rally. So, get your reservations into Vera early, as space will be limited.

## AWWW Geez! I didn't know that!

**Alaska:** More than half of the coastline of the entire U.S. is in Alaska.

**Antarctica:** is the only land on our planet that is not owned by any country. Ninety percent of the world's ice covers Antarctica. This ice also represents seventy percent of all the fresh water in the world. As strange as it sounds, however, Antarctica is essentially a desert. The average yearly total precipitation is about 2 inches. Although covered with ice (all but 0.4% of it is ice), Antarctica is the driest place on the planet, with an absolute humidity lower than the Gobi desert.

**Canada:** has more lakes than the rest of the world combined. Canada is an Indian word meaning "Big Village".

**Chicago:** Next to Warsaw, Chicago has the largest Polish population in the world

**Detroit Michigan:** Woodward Avenue in Detroit, Michigan carries the designation M-1. So named because it was the first paved road anywhere.

**Istanbul Turkey:** Is the only city in the world located on two continents. (Europe and Asia)

**Los Angeles:** The full name of Los Angeles is: "El Pueblo de Nuestra Señora la Reina de los Angeles de Porciuncula" It can be abbreviated to 3.6% of its size: L.A.

**New York:** The term 'The Big Apple' was coined by touring jazz musicians of the 1930s who used the slang expression 'apple' for any town or city. Therefore, to play New York City is to play the big time., The Big Apple. There are more Irish in New York City than in Dublin, Ireland; More Italians in New York City than in Rome, Italy; And more Jews in New York City than in Tel Aviv, Israel.

**Ohio:** There are no natural lakes in the state of Ohio. Every one is man made.

**Rome:** The first city to reach a population of one million people was Rome, Italy, in 133 B.C.. There is a city called Rome on every continent

**Siberia:** contains more than 25% of the world's forests.

**Russia:** The deepest hole ever drilled by man is the Kola Super deep Borehole, in Russia. It reached a depth of 12,261 meters (about 40,226 feet or 7.62 miles.) It was drilled for scientific research and gave up some unexpected discoveries, one of which was a huge deposit of hydrogen - so massive that the mud coming from the hole was boiling with it.

**Eisenhower interstate system** requires that one mile in every five must be straight. These straight sections are usable as airstrips in times of war or other emergencies.

**Unpaved Roads:** The chances of an unpaved road— In the U.S. A. = 1% : In Canada = 75%
